PLATINUM GATORLINE™

- Armored exterior
- Shields a highly flexible co-polymer core
- Outstanding durability
- Engineered to resist welding up to 498° F (259° C), much higher than standard line

Features

- Consistent line diameter
- Armored exterior
- Flexible core
- SuperTwist®

Benefits

- Compatible with most trimmer head systems
- High resistance to abrasion, breakage and welding
- Resistant to cracking and breaking
- Less resistance, engine drag, vibration and noise compared with traditional round nylon lines

EDGIT PRO

The EDGIT PRO™ is a trimming & edging guide for straight shaft trimmers. It indicates where the trimmer's string is cutting and holds the trimmer's spinning string in the groove. The EDGIT's 14" disk rolls down the edge like a measuring wheel guiding the string as it cuts a half-inch wide groove. The EDGIT allows a trimmer operator to produce perfect vertical edges on mulch beds, curbs and sidewalks... as fast as he can walk. It stays on the trimmer all the time.

Part # 1002

- Fits Echo SRM series
- \$65.00**

Part # 1027

- Fits Stihl straight shaft trimmers
